

## OFFICIAL CEREMONY

In the afternoon, after we had been in the swimming pool, we went to the gatehouse to watch the official ceremony of the twinning of Prato-Wangen-Ebensee.

While we were waiting for the ceremony to begin, the Deutschradio technicians started the full recording of the event, which was uploaded to the twinning page and YouTube channel.

At 3:30 p.m., the ceremony was opened by the Wangen Orchestra, after which the Mayor of Wangen, Michael Lang, took the floor to present this great event.

After the mayor's speech, the results of the workshops were presented.

After the first group, the Councillor for Tourism of Prato, Gabriele Bosi, affirmed the value of such a partnership and thanked the young people who had participated.

After the Councillor's speech, the group moved on to the second workshop, which dealt with the lack of suitable places for young people in the different cities and the demand, especially in Prato, to give more voice to young people.

Also at the end of the second workshop, "Voglio cantare a te città di Prato" was presented and played by a violinist and then by the whole orchestra.

After the orchestra, the delegation from Ebensee spoke, who were very pleased with the work done in May, and the last workshop was presented, which was about thinking about the future and what society will look like in 2032 in all its facets.

At the end, the Wangen orchestra played the European anthem and a song in honour of Prato.
